

Core Belief Exercise
Ryan Ford
Texas Baseball Resource

We are in control of our own destiny.

Personal development within the game of baseball extends to life beyond the sport.

We are a source of positive energy.

Inspire others through our work ethic and attitude, both on and off the field.

We believe in a team first mentality.

Success will be determined by our collective achievements, recognizing the value each individual brings both on and off the field.

We are building a legacy that will outlast us.

Inspire the next generation while serving the greater community.
