## BRUINS BASEBALL

To: Whom it may concern  
From: Mitch Schmidt  
Re: Recommendation for McCoy Pearce

I have been associated with McCoy Pearce for the last four years as a human being, academic student, college student-athlete and as a summer team member. While moving through the early stages of adulthood, McCoy has proven himself as a good example whether it is the game of baseball or the game of life. He truly tries to be seen every day as a respectful young man of the future.

McCoy is a very organized individual that gives his all and responds to be the best with all opportunities to be successful. He is always trying to better himself by being open to learning new ideas and strategies that are going to benefit everyone he is going to be a part of. McCoy has a strong desire that has taken him to the next levels of life and will continue to do so in the future.

I trust the decisions that McCoy makes because he is always taking everything into consideration when he makes his life choices. He is learning through life's experiences. When he is successful he continues those choices and when he fails he learns from those choices and refrains from that path when faced with similar lessons. He has willingly given his time and efforts on and off the field to become a better member of society and the world will only benefit from his growth in the future.

In conclusion, I would strongly encourage you to permit McCoy to represent you in the future because he will thrive in his future athletic, educational, professional and societal accomplishments. Each and every person, McCoy has played with and against will always remember his organization, hard work, work ethic, enthusiasm and professionalism he brought to the table every day. I strongly recommend McCoy for any and all future endeavors he embarks on. If you have any further questions, please feel free to contact me at (402) 557-7091

Sincerely,

*Mitch Schmidt*
